

TanksDirect

“first choice”

PROJECT INFORMATION SHEET

Project: NASA Goddard Space Flight Center
Greenbelt, MD

Project Description: Tanks Direct provided installation of three (3) 3,000 gallon aboveground storage tanks to replace two (2) existing fuel storage tanks. Tanks Direct was also responsible for the removal of the existing 15,000 gallon underground storage tank, the existing 5,000 gallon aboveground storage tank as well as all control, power, communication conduit and wire. Project highlights include:

- Installation of three (3) 3,000 gallon fireguard tanks; one (1) for biodiesel and two (2) for unleaded fuel
- Installation of two (2) dispensing units
- Tank monitoring system w/ leak detection integrated into the Building Management System (BMS)
