

TanksDirect

“first choice”

PROJECT INFORMATION SHEET

Owner: Abingdon Heights Condominium
Arlington, VA

Project Description: Tanks Direct was contracted to provide a new aboveground storage tank to be installed in the basement of an existing condominium for the purposes of collecting water from cooling towers. This project was completed in order to achieve LEED points associated with the US Green Building Council initiatives. Project Highlights include:

- 3000 Gallon aboveground steel tank (recycled materials) with custom configuration of manways and openings
- Interior tank coating compatible with chilled water
- Duplex pump set for pumping water to other sources on-site
- Electronic control system (valves, alarms, level)

8580 Laureldale Drive, Laurel MD 20724
