

# TanksDirect

“first choice”

## PROJECT INFORMATION SHEET

**Project:** Power Loft Data Center  
Manassas, VA

**Project Description:** Tanks Direct was contracted on three separate phases of work to install a total of four UL 142 aboveground storage tanks & custom control equipment for the purpose of providing fuel oil to emergency generators & rotary power units at the Power Loft mission critical data center.

**Phase 1:** Supply & installation of (1) 10,000 gallon AST, Veeder Root TLS-350 Tank Monitoring Console & a Custom Pump Control Panel designed to supply fuel from (1) AST to (2) mechanical generators & (3) rotary power units.

**Phase 2:** Supply & installation of (2) 50,000 gallon AST's, Veeder Root Tank Monitoring Console, (5) Tank Remote Pump Fill Stations, (4) Tank Filtration System & Custom Pump Control Panels designed to supply fuel from (5) ASTs to combination of 21 existing & future mechanical generators/rotary power units.

**Phase 3:** Supplying and installation of (1) 50,000 gallon aboveground storage tank.
