

TanksDirect
"first choice"

FIRE SUPPRESSION STORAGE

Tanks Direct proudly offers a full range of fire suppression water storage solutions. We partner with you from the beginning to make sure your project can stand the heat.

Services & Benefits

- Before breaking ground, we work with you on the design and product selection based on sizing optimization to find the best fit for your budget.
- Guiding you with regulatory compliance and reviews, we provide complete project-specific drawings and guide specifications.
- Once it's time to place your tank, we offer manufacturer support, supplies of materials, and equipment you'll need. Count on us for your installation, commissioning, and inspection services!
